

Assignment 2 : Building a LeadGen Marketing Landing Page in Bubble

Overview

In this assignment, you will create a simple version of a LeadGen Marketing Landing Page using Bubble, inspired by the design found on Dribbble [here](#). This exercise aims to familiarize you with Bubble's elements, groups/containers, and the responsiveness engine.

Objectives

- Develop a marketing landing page using Bubble.
- Use Row/Column structure effectively.
- Ensure elements stack properly when the page width is reduced.

Deliverables

- Submit the link to your Bubble app in preview mode.

Evaluation Criteria

- **Layout:** Proper use of Row/Column structures.
- **Responsiveness:** Elements stack correctly when the page width is reduced.
- **Design:** Adherence to the design inspiration from the Dribbble link provided.
